

Trees for Fall Color - a tour of some of the trees on new S2T2 (Sunnyside Street Tree Team) list of recommended street trees

Finding specific cultivars of some trees was more challenging than expected but thanks to Friends of Trees, you can walk or bike to some nearby neighborhoods for some fine trees not yet documented in Sunnyside. I hope to have one or more maps available soon so please check back. In the meantime, the trees are numbered in "loops" that can be started at address nearest to you and done in segments. Enjoy the color! Gregg Everhart, on behalf of S2T2

No.	COMMON NAME	LOCATION (street tree unless noted)
Sunnyside
